The Lavender Room

A welcome haven is nestled in the Infinity Waters apartment complex in West Lakes, South Australia, for the over-worked, stressed-out or just those that love five star pampering. The Lavender Room Organic Day Spa is a blissful sanctuary where an ambient vibe awaits you from the minute you walk in the door.

Serenity and tranquillity embrace you as you are warmly greeted by friendly, passionate staff. The Spa waiting area is a sublime spot to sit with your complimentary organic beverage or to look through the extensive range of organic products in the spa boutique, hosting organic premium skincare, bath, body and lifestyle products from around the world. You can purchase anything from the purest organic beeswax candles to luxurious organic cotton sheets and bamboo towels.

The Spa boasts its own organic product line that is used in most of the unique in-house treatments. Among the favourites are Lullaby Lavender Milk Bath, a decadent creamy blend delicately infused with organic lavender oil and chunky cocoa butter pieces, and Vanilla & Jasmine Body Whip, which is enriched with shea butter and honey. Bliss for the skin! The spa menu at The Lavender Room has a wide array of signature treatments, from sampler treatments such as the Mini Bliss, a delicious mini facial with hot towels and foot therapy, or the Little Spa, a mini hand spa with a healing organic rose-hip and Manuka honey treatment, to heavenly half- and full-day spa journeys.

Body treatments include divine combinations of organic body scrubs, organic cotton cocoons and even a warming vanilla chai body treat. The array of customised facials is tempting, along with several different forms of massage on offer, from the tantalising Indian head massage using warm coconut oil, to Aromatherapy, Sports and even a Pregnancy treatment that would have the tiredest of mums-to-be walking out with a spring in their step! A standout signature treatment, the Skin Serenity, lures you into a warm cleansing sandalwood and jasmine exfoliation, then cocoons you in a skin soothing organic mask while the heavenly hands of your therapist melt away tension from feet and scalp. Soak up the sublime frangipani milk bath which awaits you and float out on air after an exotic oil body massage.

Spa journeys include a Mecca of organic spa treatments. For the day spa lover, you can't go past the Infinity, a four and a half hour journey

that offers an amazing spa experience, and encompasses a full facial, a massage using precious oils, a warm frangipani and coconut body cocoon, an enriching hand spa with gorgeous scrubs and masks, and hot stone hand massage! And just when you are about to start drooling over how relaxed and rejuvenated you feel, your therapist gently guides you to a huge immersion tub filled with a organic wild rose bath milk and some organic beverages and treats to enjoy.

The Spa also offers expert waxing, professional make-up services, and customised skin consultations. Large, spacious treatment rooms are stacked with organic towels and robes and 'couples treatments' are a specialty. The vibe of the Spa is intimate and personalised. No detail is spared, with tea-lights sprinkled throughout the rooms, extra large treatment tables draped in organic cotton bedding, fresh organic teas and interesting magazines. Timber furnishings and beautiful warming colours complement the feeling of ambience, with client comfort and respect being an absolute priority.

Spa owners Anna and Russell are at the helm of this magical place and their love of all things organic flows into the business. The Lavender Room is open six days a week, including all day Saturday and 11-4 on Sundays, with trading until 7p.m. weekdays. A sanctuary of wellness awaits. ✿
